TDB Trends Research (Research \& Summary for October 2019)

## Significant deterioration in the retail industry due to consumption tax rate increase

~ Typhoons also put downward pressure on the domestic economy $\sim$
(Companies researched: 23,731; Valid responses: 10,113; Response rate: $42.6 \%$; Survey start date: May 2002)
< Overview of October 2019: Possibility of entering a recession phase >
The economic diffusion index (DI) in October 2019 was 43.9, down 1.1 points from the previous month, and the first worsening in three months. While the possibility of entering a recession phase continued in the domestic economy due to sluggish capital spending and a consumption tax rate increase, damage caused by typhoons also had an adverse effect.
< Future outlook: Uncertainty will further intensify,

## due to many downside factors >

Consumption trends are key for the future domestic economy. Moreover, there are many causes of concern, such as trade friction and global economic slowdown. Uncertainty about the domestic economy has been further intensifying.

By industry : Eight of the ten industries deteriorated. The consumption tax rate increase and typhoons had an impact.

By size : All sizes deteriorated. The consumption tax rate increase and typhoon damage exerted downward pressure.

By region : Nine of the ten regions deteriorated. Deterioration stood out in urban regions which have a large consumption area.

| Large Firms | 1,996 | $19.7 \%$ |
| :---: | ---: | :---: |
| Small to Medium-sized Firms | 8,117 | $80.3 \%$ |
| micro Firms | 2,731 | $27.0 \%$ |
| Total | 10,113 | $100.0 \%$ |

## 2.Research Items

*Business Confidence (current, in 3 months, in 6 months, in 1 year)
*Business Conditions (sales, purchasing and selling unit price, inventory, capacity utilization ratio, number of employees, overtime work hours)

## 3.Research Period and Methodology

Internet-based survey conducted October 17-31 2019

## The explanation of the Economic Diffusion Index

## Research Purpose/Researched Terms

TDB Economic Trend Research (started from May 2002) is a monthly statistical survey conducted for over 20,000 nationwide corporations on their general business activities including the current condition and future outlook of the industry business performance and operating climate. The primary purpose of such a survey is to assess the current state of Japan's economy.

## Selection of the Subject Corporations

Companies of all sizes in all domestic industries are eligible to participate in the survey.

## DI Calculation

The DI (Diffusion Index) is calculated by multiplying the number of responses for each assessment category by the number given in parentheses in the table below, to a seven-level assessment rated by companies.

| Selection category | Extremely good | good | fairly good | neither good nor bad | fairly bad | bad | very bad |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| points | 6 | 5 | 4 | 3 | 2 | 1 | 0 |
| number of responses <br> for each category | $\mathrm{N}_{6}$ | $\mathrm{~N}_{5}$ | $\mathrm{~N}_{4}$ | $\mathrm{~N}_{3}$ | $\mathrm{~N}_{2}$ | $\mathrm{~N}_{1}$ | $\mathrm{~N}_{0}$ |

## Economic DI

$=\frac{\text { Total of (Points for each category } \times \text { Number of responses for each category) }}{\text { Number of valid responses } N} \times \frac{1}{6} \times 100$
$\equiv \frac{\sum_{i=0}^{6} i \times N_{i}}{N} \times \frac{1}{6} \times 100$

An economic DI of 50 is the point separating good and bad, so a DI over 50 means "good," and below 50 means "bad." (The numbers are rounded off to one decimal place.) No weight is given according to a company's size, and calculations are made on the basis of "one company, one vote."

## Size Classification

| Industry | Large Firms | Small to Medium-Sized Firms (Micro Firms included) | Micro Firms |
| :---: | :---: | :---: | :---: |
| Manufacturing and Other Industries* | Capital: More than 300 million yen and No. of Employee: Over 300 | Capital: Below 300 million yen <br> or <br> No. of Employee: Below 300 | No. of Employee: Below 20 |
| Wholesale Trade | Capital: More than 100 million yen and No. of Employee: Over 100 | Capital: Below 100 million yen <br> No. of Employee: Below 100 | No. of Employee: Below 5 |
| Retail Trade | Capital: More than 50 million yen and No. of Employee: Over 50 | Capital: Below 50 million yen <br> or <br> No. of Employee: Below 50 | No. of Employee: Below 5 |
| Service** | Capital: More than 50 million yen <br> No. of Employee: Over 100 | Capital: Below 50 million yen <br> or <br> No. of Employee: Below 100 | No. of Employee: Below 5 |

Note1: Large Firms refer to companies that rank in the top $3 \%$ in terms of sales volume according to the type of business, among small to midium-sized corporations excluding micro firms, which are defined in Small and Medium Enterprises Basic Act.
Note2: Small to Medium-Sized Firms refer to companies that rank in the bottom $50 \%$ in terms of sales volume according to the type of business, among those not categorized as small to midium-sized corporations in Small to Medium-Sized Enterprises Basic Act.
