# TDB Trends Research (Research & Summary for August 2021)

# A spike in the number of infections put a crimp in the economy

 $\sim$  The effects of heavy rainfalls and prolonged rains also exerted downward pressure, with a significant drop related to consumer spending  $\sim$ 

(Companies researched: 24,458; Valid responses: 11,170; Response rate: 45.7%; Survey start date: May 2002)

# < Overview of August 2021: Temporarily at a standstill >

The economic diffusion index (DI) in August 2021 was 39.2, down 1.5 points from the previous month, and worsening for the first time in three months. Due to the surge in the number of infected people combined with the effects of record rainfalls, the domestic economy has temporarily come to a standstill.

# < Future outlook: After temporary stagnation, gradual recovery >

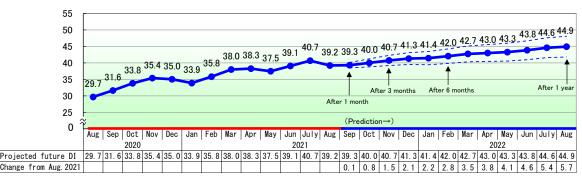

The economy is expected to continue a gradual recovery, although it is temporarily stagnant due to the declaration of a state of emergency, etc.

e-mail: keiki@mail.tdb.co.jp

By industry: The economy worsened in nine of the ten industries. A significant drop was particularly evident in consumer spending-related businesses.

By size: The economy worsened in all sizes for the first time in three months. A worsening was prominent among food and beverage-related SMEs.

By region: All ten regions worsened for the first time in three months. The expanded and extended state of emergency had an impact.

<sup>\*:</sup> Economic DIs are calculated based on the structural ARIMA model, in which economic statistics are incorporated to the ARIMA mode

#### 3.Size

DIZC		
Large Firms	1,869	16.7%
Small to Medium-sized Firms	9,301	83.3%
micro Firms	3,327	29.8%
Total	11,170	100.0%

#### 2.Research Items

\*Business Confidence (current, in 3 months, in 6 months, in 1 year)

\*Business Conditions (sales, purchasing and selling unit price, inventory, capacity utilization ratio, number of employees, overtime work hours)

# 3. Research Period and Methodology

Internet-based survey conducted Aug 18 – 31 2021

## The explanation of the Economic Diffusion Index

# **Research Purpose/Researched Terms**

TDB Economic Trend Research (started from May 2002) is a monthly statistical survey conducted for over 24,000 nationwide corporations on their general business activities including the current condition and future outlook of the industry business performance and operating climate. The primary purpose of such a survey is to assess the current state of Japan's economy.

# **Selection of the Subject Corporations**

Companies of all sizes in all domestic industries are eligible to participate in the survey.

#### **DI Calculation**

The DI (Diffusion Index) is calculated by multiplying the number of responses for each assessment category by the number given in parentheses in the table below, to a seven-level assessment rated by companies.

Selection category	Extremely good	good	fairly good	neither good nor bad	fairly bad	bad	very bad
points	6	5	4	3	2	1	0
number of responses for each category	N <sub>6</sub>	$N_5$	N <sub>4</sub>	N <sub>3</sub>	N <sub>2</sub>	N <sub>1</sub>	N <sub>0</sub>

#### Economic DI

$$= \frac{\text{Total of (Points for each category} \times \text{Number of responses for each category})}{\text{Number of valid responses } N} \times \frac{1}{6} \times 100$$

$$\equiv \frac{\sum_{i=0}^{\infty} i \times N_i}{N} \times \frac{1}{6} \times 100$$

An economic DI of 50 is **the point separating good and bad**, so a DI over 50 means "good," and below 50 means "bad." (The numbers are rounded off to one decimal place.) No weight is given according to a company's size, and calculations are made on the basis of "one company, one vote."

#### Size Classification

Industry	Large Firms	Small to Medium-Sized Firms (Micro Firms included)	Micro Firms			
Manufacturing and	Capital: More than 300 million yen	Capital: Below 300 million yen				
Other Industries*	and	or	No. of Employee: Below 20			
	No. of Employee: Over 300	No. of Employee: Below 300				
Wholesale Trade	Capital: More than 100 million yen	Capital: Below 100 million yen				
	and	or	No. of Employee: Below 5			
	No. of Employee: Over 100	No. of Employee: Below 100				
Retail Trade	Capital: More than 50 million yen	Capital: Below 50 million yen				
	and	or	No. of Employee: Below 5			
	No. of Employee: Over 50	No. of Employee: Below 50				
Service**	Capital: More than 50 million yen	Capital: Below 50 million yen				
	and	or	No. of Employee: Below 5			
	No. of Employee: Over 100	No. of Employee: Below 100				

Note1: Large Firms refer to companies that rank in the top 3% in terms of sales volume according to the type of business, among small to midium-sized corporations excluding micro firms, which are defined in Small and Medium Enterprises Basic Act.

Note2: Small to Medium-Sized Firms refer to companies that rank in the bottom 50% in terms of sales volume according to the type of business, among those not categorized as small to midium-sized corporations in Small to Medium-Sized Enterorises Basic Act.
